

QUANTUM captures the look and feel of a quilted fabric whilst providing the durability and care of a vinyl. Subtle detailed features include a faux stitch emboss around the diamond pattern to create a luxurious finish.

QUANTUM is U.V resistant which enables the vinyl to withstand outdoor conditions. It is also treated with a Protech coating, a formulation which helps guard against stains and inhibits the growth of bacteria.

Perfect for use in hospitals, hotels and high traffic areas such as schools and restaurants.

CARE & CLEANING

Most stains can be cleaned using warm soapy water, followed by clean water rinsing. Moderate scrubbing with a medium bristle brush will help loosen soiling from the embossed surface. Failure to follow cleaning instructions may permanently stain and reduce the life of the vinyl. For further cleaning information, please contact Austex Fabrics for a product cleaning guide.

All Austex products are designed and manufactured in accordance with the quality assurance system ISO 9001.
