

JINX captures the look and feel of a quilted fabric whilst providing the durability and care of a vinyl. The faux stitch, large embossed diamond pattern creates a luxurious finish that not only looks real, but is **100% waterproof**.

JINX is U.V resistant which enables the vinyl to withstand outdoor conditions. It is also treated with a Protech coating, a formulation which helps guard against stains and inhibits the growth of bacteria.

Perfect for use in hospitals, hotels and high traffic areas such as schools and restaurants.

Protech	A protective top surface allowing easy removal of difficult stains and dirt.
Usage	Suitable for heavy commercial, healthcare and marine upholstery.

CARE & CLEANING

Most stains can be cleaned using warm soapy water, followed by clean water rinsing. Moderate scrubbing with a medium bristle brush will help loosen soiling from the embossed surface. Failure to follow cleaning instructions may permanently stain and reduce the life of the vinyl. For further cleaning information, please contact Austex Fabrics for a product cleaning guide.

All Austex products are designed and manufactured in accordance with the quality assurance system ISO 9001.
