

FUSION PRINTED COMMERCIAL FABRICS

VERSION 2.0

Discover a world of design possibilities

AUSTE 
FABRICS

WELCOME

Discover a world of design possibilities with Austex Fusion... our custom-printed commercial fabric range, designed and printed in our Melbourne studio.

Where form meets function, Fusion goes beyond decoration to deliver performance. Printed on waterproof polyester base fabrics using the latest technology.

Perfect for healthcare, hospitality and other high-demand commercial environments, Fusion makes it easy to get the look you love with quality you can rely on.

Fusion offers:

- Advanced stain and spill resistance;
- Antimicrobial protection;
- Bleach cleanability;
- Fire retardancy.

The colours and scale shown in this brochure may not be a true representation of the actual product and must be viewed as a guide only.

BASE FABRICS

A comprehensive selection of durable, soft and beautiful waterproof fabrics that are designed to resist stains, spills and bacteria ... the perfect choice for healthcare and commercial environments. All Fusion base fabrics are printable, offering a choice of textures that will give a different depth and dimension to each design.

BASE FABRICS

Weave

A robust woven base cloth, recommended to withstand the rigours commonly found in healthcare and commercial applications. Weave offers superior strength, durability and performance characteristics making it ideal in all high traffic areas.

Chenille

A soft and luxurious base cloth that will exceed your expectations for comfort and performance. This beautifully designed seating fabric can easily be integrated into new and existing interior settings to promote a sense of comfort and well being.

Suede

Suede captures the look and feel of genuine suede. The supple nap is designed to pamper you, providing a sense of warmth and luxury appeal. The soft, plush hand is matched by its durability and ease of care in commercial and healthcare environments.

ECO PU

Eco P.U is the ultimate upholstery fabric. The printable coated fabric is like no other product on the market today. The impenetrable waterproof barrier provides resistance to chemicals and stains whilst protecting the surface from abrasion and scuffing. Its smooth and unique surface coating does not absorb liquids or retain dampness, ensuring a dry and low maintenance seating environment.

HOW TO GET STARTED

Select a Base Fabric

Select a base fabric from the samples opposite. Each base fabric offers unique texture and performance properties, so your print result will vary accordingly.

If a base cloth isn't selected, our default is Weave.

Choose Your Design & Colour

Explore the full Fusion design library and select your preferred pattern and colourway. With over 60+ collections and growing, there's something for every interior concept.

Request a Free Printed Sample

Submit a sample request via our website or email. We'll send you a printed sample of your chosen design on your selected base cloth, so you can confirm colour accuracy, scale, and overall finish.

Confirm & Place Your Order

Once you're happy with your printed sample, place your official order online or via email by confirming the design name, colourway, and base cloth. From here, we'll handle the rest.

Simply select a base fabric together with your favourite Fusion design to create a unique choice for your next project.

Austex produce only high quality product, using safe fabrics and manufacturing practices that minimize pollution, waste, energy and water usage.
USAGE	Waterproof upholstery fabrics, suitable for Heavy Commercial and Healthcare applications.
CARE & MAINTENANCE	Regular maintenance — Vacuum fabric regularly to remove crumbs, dust and dirt to avoid build up. Spills — Soak up spills as quickly as possible using a dry absorbent cloth. Persistent stains — Most stains can be cleaned using a damp cloth. For persistent stains use a warm soapy water solution. Moderate scrubbing with a soft bristle brush and soapy solution will help loosen soiling from the fabric surface. It is very important to remove all soap residue with clean water. Fusion can also be cleaned with a bleach solution (1 part bleach solution 10 parts water) rinse with clean water & dry with clean towel to remove all chemical residue. Do not use solvent based cleaners. Failure to follow cleaning instructions may permanently stain and reduce the life of the fabric.
